

RAK
ceramics

The Bathroom Collection 2011

Company profile

RAK Ceramics is the world's largest manufacturer of high quality ceramic and porcelain tiles, sanitaryware and fireclay kitchen sinks. The company can be considered unique in its ability to create excellent quality products to the very latest fashion designs using the most advanced technical processes available worldwide.

The main headquarters and manufacturing plant for RAK Ceramics is situated in Ras-Al-Khaimah in the United Arab Emirates. Established in 1991, the company has grown at an astonishing rate, now occupying an ever-expanding site in excess of 2 million m² and producing 3.5 million pieces of sanitaryware per annum.

RAK Ceramics exports to 150 countries worldwide and has other manufacturing plants in China, Bangladesh, India and Sudan to satisfy the demands of these local markets, with global production of tiles over 360,000 m² per day.

The company operates an accredited quality management system that serves as a framework for managing its operations, including continuous compliance, for its manufacturing and products. RAK Ceramics is a ISO 9001 : 2008 & ISO 14001 : 2004 certified organisation.

Certification

WRAS (Water Regulations Approved Scheme) approved accreditation.

Manufactured under ISO 9001:2000 quality management system.

Business Superbrand Award 2009 – validating RAK's genuine commitment to deliver high quality and trend setting ceramic products.

RAK Ceramics colour brochures provide full details on the entire range, including inspirational examples of how porcelain and ceramic products can be used collaboratively for great effect.

Series 600

SERIES 600 is probably the most space saving range on the market. The close coupled WC projects from the wall by only 595mm.

Despite its contemporary styling and air of quality it is incredibly affordable. Blended with our 1700mm x 700mm METROPOLITAN 5mm Easyflow acrylic bath, also available as 1800mm x 800mm and Polaris basin and bath mixers it delivers unequalled value for money.

Please refer to page 30 for mirror options.

Series 600

52cm Basin and full pedestal with 1 or 2 tap holes.
Dimensions
W520mm x D425mm.

40cm hand basin and full pedestal with 1 or 2 tap holes. Can also be wall mounted.
Dimensions
W400mm x D365mm.

52cm Basin with half pedestal, 1 or 2 tap holes.
Dimensions
W520mm x D425mm.

Wash basin overview.

Inset vanity bowl with 1 or 2 tap holes.
Dimensions
W500mm x D425mm.

42cm semi-recessed basin with 1 or 2 tap holes.
Dimensions
W420mm x D350mm.

Back to wall WC with wrap over urea seat with optional soft close.
Dimensions
W350mm x D500mm.

Close coupled WC with wrap over seat and optional soft close.
Dimensions
W365mm x D780mm x D595mm.

Amazingly this bathroom is only 2m x 1.7m or 6' 6" x 5' 7". Yet SERIES 600 fits well into this very small bathroom even with our minimalist METROPOLITAN 1700mm x 700mm, 5mm acrylic bath complete with overhead shower and bath screen!

Suggested water fitting Polaris basin monoblock with pop-up waste. See full our full range on page 38.

Metropolitan

METROPOLITAN was created for the younger customer seeking a chic minimalist look for a limited budget. Most low cost bathroom ranges are dated and lack style and appeal. METROPOLITAN has a balanced mix of curves and straight lines resulting in a strong statement for today's small bathroom.

Please refer to page 30 for mirror options.

Metropolitan

52cm basin and pedestal with 1 or 2 tap holes.
Dimensions
W525mm x D415mm.

42cm basin with half pedestal with 1 or 2 tap holes.
Dimensions

Easyflow acrylic bath.

Suggested water fitting Prime basin monoblock with pop-up waste. See full our full range on page 38.

Empire

Echoes of yesteryear are apparent in this modern reproduction of a Belle Epoch classic.

The stylisation makes a strong, individual statement for anyone in love with this era. Displayed here with large format porcelain Sixo Ivory tiles for floor and wall, beautifully contrasted with Black polished porcelain edgings.

Please refer to page 30 for mirror options. Taps shown no longer available.

Empire

60cm basin and full pedestal with 1, 2 or 3 tap holes.
Dimensions
W600mm x D525mm.

45cm wall hung basin with 1 or 2 tap holes.
Dimensions

Back to wall pan with wrap over urea seat or optional soft close seat.
Dimensions
W370mm x D530mm.

Suggested water fitting
Passion basin monoblock with pop-up waste. See our full range on page 38.

Evolution

Make the most of limited space with this unique collection. Unlike all other corner WC's in the marketplace, our Evolution WC unit is flush fitting to both sides of the wall. The pan also has a flexible soil pipe connector for easy fitting.

Combined with a corner basin, this range is renowned as a space saving essential.

Evolution

40cm Corner wash basin and full pedestal with 1 tap hole.
Dimensions
W420mm x D640mm.

Corner wash basin overview.

Suggested water fitting

Back to wall WC with wrap over urea or soft closed seat. Dimensions W370mm x D510mm.

Suggested water fitting Prime basin monoblock with pop-up waste. See full our full range on page 38.

Compact Hands Free

Hands Free WC for Improved Hygiene

Hygiene is a major issue today, whether it is a hospital or in your home. In conjunction with Cistermiser, a UK specialist manufacturer of sensor controlled water management systems, RAK Ceramics has developed a close coupled wc for use both at home, or in the contract field.

We have modified our COMPACT Deluxe model to accept a specially developed battery operated flushing system prepared by Cistermiser especially for us. The system allows you to flush your wc without touching – just allow the system to flush by passing your hand slowly over the sensor.

The mechanism delivers the same water release from the cistern as if you had pressed our normal manual 6/3 litre push button control. It is powered by 4 AA batteries contained in a waterproof battery pack, so there is NO NEED FOR EXPENSIVE wiring. We are told that the batteries should last 2/3 years in normal domestic operation. They are easy to remove and refit.

In addition, you have the added comfort of knowing that the mechanism is backed up by both RAK UK's and Cistermiser's service support all round the UK.

Close up of sensor operated control.

Close up of open cistern showing battery operated power unit.

COMPACT Deluxe close coupled wc with extended height and soft close seat.
Dimensions
W360mm x D625mm x H825mm.

Compact 'Special Needs' sanitary ware

No Overflow Basins

Only model with multiple tap holes.

50cm and 38cm basins with left and right hand tap holes and no overflow.

50cm basin with no tap hole or overflow.

Rimless pans

Compliant to Government Directive HTM64, WRAS flushing standards and EN 997-2003. Also conforms to UK water regulations 2001. Specially reinforced toilet seat with safety locking hinges available in White or Anthracite.

750mm extended projection rimless back to wall pan, designed specifically for Doc M requirements. Also available as HTM64 compliant 700mm projection. Height of pan 480mm. Dimensions W365mm x D520mm.

There are two models of rimless pan available. 450mm pan height Dimensions W365mm x D520mm. 480mm pan height Dimensions W365 x D520mm.

Hidden cisterns and support mechanisms

RAK's new adjustable support for hidden fixing of wall hung pans with integrated adjustable support frame and cistern.

Adjustable frame

Example of how frame sits behind wall

For wall hung pans, the new adjustable support frame can be used for most plumbing applications.

Combine with our insulated concealed cistern with chrome Geberit flush plate. This mechanism is also suitable for back to wall pans.

Support legs

Example of how support legs sit behind wall

RAK's standard built in system of separate support legs with hidden cistern and dual flush button.

Baths

RESERVA 1700mm x 800mm x 430mm.

ORIENT 1700mm x 740mm x 415mm.

DKM 1800mm x 800mm x 430mm.

All RAK UK acrylic baths are manufactured from 5mm Easyflow acrylic allowing us to achieve a higher quality bath with increased depth across our entire product range.

The acrylic sheets we use are sanitary graded to UK specifications and manufactured by UK based Lucite International. Our baths are also reinforced which encapsulates the baseboard and has a gelcoat finish.

Brassware

Taps and mixing valves are manufactured from Kludi RAK which are designed to conform with Water Regulations giving adequate flow rates from traditional UK unvented systems whilst being pressure rated to suit mains, combi and unvented supplies.

Our taps are suitable for medium to high pressure installations. The taps are fitted with a half turn ceramic disc cartridge to provide a good flow rate and very smooth movement. They are also fitted with an aerator. To ensure that the taps work adequately under low pressure, the cold water storage tank must be at least 2 metres above the highest installation position.

Installation must comply with Local Water Authority regulations. All taps in this range are single flow i.e. hot and cold water mixes in the body. They should therefore be supplied with hot and cold water at balanced pressures from the water tank or from mains i.e. via a combination boiler. If the water supply to taps is not at balanced pressure then the mixer will not function correctly. It is also necessary to fit non-return valves on both hot and cold feeds. To avoid damaging the ceramic discs it is very important that all pipe work is flushed after installation.

Testing

Our rigorous processes and efficient operation, along with the size of our manufacturing, enables us to deliver consistency of quality and value for our products. All products are manufactured using materials tested and approved under the Water Byelaws Scheme and comply with British Standard 5412: 1996 requirements where applicable.

Manufacturing quality

Quality standard BS EN ISO 9001

Excellence is a way of life at RAK Ceramics. As a global leader in the industry we are committed to providing the highest quality products to our customers. RAK Ceramics believes in the principle that business organizations depend on their customers and we are committed to not only meeting our customers' needs but also to surpassing their expectations.

RAK Ceramics has been assessed by Bureau Veritas Certification UK and has been granted approval under the terms of the scheme for Supplier Quality Management system to ISO 9001:2000.
