## Product design

At RAK Ceramics we have a very close relationship with our customers. We listen to their advice as they are the ones closest to the end users of our products.

Our philosophy has always been to create products with a high 'wow' factor, meeting all the aspirations you may have for your new bathroom. Once we have covered every square inch of our product to make it as excellent as it can be, we then put a price on it. This is a critical stage because having gone to such lengths to create a special product, we need to make sure it can be an instant buy for you. Our prices reflect this approach and we believe in general, that our products are the very best value-for-money in the market.

With RAK Ceramics you can achieve your dream bathroom within a modest budget.

## Company commitment

Excellence is a way of life at RAK Ceramics. As a global leader in the industry we are committed to providing the highest quality products to our customers. RAK Ceramics believes in the principle that business organizations depend on their customers and we are committed not only to meeting our customers' needs, but also to surpassing their expectations.

We excel in providing high quality products and services by using the best technology to create innovative products, combining state of the art design and functionality with value for money.

## RAK Ceramics offers something special

You need to feel at home in your new bathroom. Relaxation is a prerequisite from the end product.

RAK Ceramics has unparalleled resources of its own manufacturing ability. This delivers to our customers product ranges created in the same factory – the result is a consistency of quality and value, others find difficult to match.

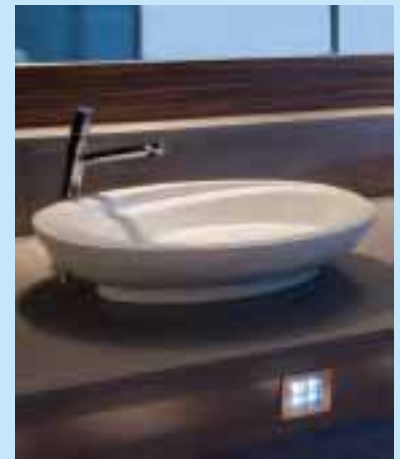

Sanitaryware is all made to the highest standards, not only in its high lustre glazed finish, but also its design and efficient operation. Rigorous WRAS standards and WC water testing before despatch are just two of our minimum performance standards.

Water fittings are produced with our German partners in our dedicated factory, and also have to meet the demanding European EN standards.

Our tiles are normally porcelain, so can often be used for wall and floor application without anxiety of future performance.

Acrylic baths are extra deep and created from a UK produced 5mm sheet out of the top drawer, known as Easyflow, giving an excellent finish.

In short your new RAK bathroom will offer you an environment of peace and tranquillity that will last long into the future.

**Image II** by Dame Barbara Hepworth DBE 10 January 1903 – 20 May 1975

**Image II** is a massive, roughly pyramidal block of white marble. It's solidity is lightened by undercutting of the lower edges and by the piercing of a hole through the heart of the stone. The central piercing is typical of Barbara Hepworth's work. One effect of the hole is to introduce light through the centre of the solid and the shallow concave surfaces on each face enhance the retention of light within the classical purity of the material.

The quality of the hole is typical of Barbara Hepworth's work. The profile of the entrance is subtly worked so that the line of a spiral emerges from a plane to lead the eye into the cylindrical shaft; the emergence on the other side is similar, though modified by a bevelled edge. One effect of the hole is to introduce light through the centre of the solid.

PHILIP ALLEN  
Designer of Infinity

My inspiration for the design of INFINITY came from an iconic English sculptor who created this masterpiece from white marble.

I believe I have achieved my aim to blend originality with a smooth texture which our clientel can feel comfortable with forever.

Beautifully simple design. Close coupled back to wall pan wc with soft close seat. Back to wall bidet with New Waves bidet mixer. 100cm x 50cm light grey polished Lounge porcelain floor and wall tiles.

NEW METROPOLITAN 1,800mm x 800mm Easyflow acrylic bath. Built for comfort, creating tranquility and calm in your bathroom. Clad in porcelain surround with 4 hole INFINITY bath mixer set.

Large counter top basins with INFINITY basin monoblock mixers, set on grey porcelain slab vanity top. 100cm x 50cm light grey polished Lounge porcelain floor and wall tiles. Individual styling on stunning but durable background.

58cm Large counter top basin

45cm Inset basin for under or over mounting.

50cm basin and half pedestal. Wall hung pan, hidden wall fixings and soft close seat.

**Our wall hung wc pan features smooth sides with no ugly fixings.**

60cm x 30cm Lounge beige matt tiles.  
40cm x 40cm Lounge beige matt tiles.

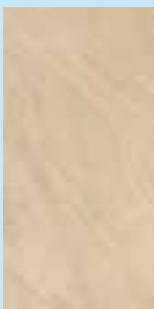

Elegant INFINITY 60cm basin and full pedestal, close coupled wc with soft close seat with open back pan. Back to wall bidet 360mm x 580mm x 425mm. Profile bidet and basin mixer taps. 60cm x 30cm Super White ceramic wall tiles.

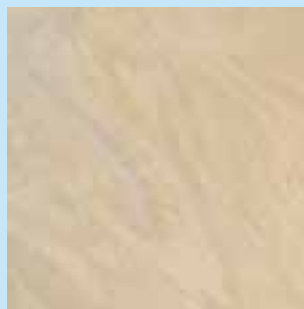

1,700cm x 700cm 5mm acrylic METROPOLITAN bath with screen. Infinity back to wall pan and soft close seat, Infinity 50cm basin and half pedestal. Prime water fittings.

A comprehensive range from the start making it easy to incorporate INFINITY into any new build or refurbishment. Stunning styling and unrivalled value make it a must for any project.

## Fabulous Seine Cloudy tile range

60cm x 30cm polished porcelain wall or floor tiles

60cm x 60cm polished porcelain wall or floor tiles.  
Six colours available

Counter top bowl 550mm x 400mm x 200mm

Deliciously opulent – this is the bathroom for the family who has everything. It is very rare these days to see a new design with its roots so much embedded in a classical past.

Minimalism is not everyone's design solution. PALACE is full of classic decorative appeal and that decoration which is a feature of the sanitaryware is harmonized with the double ended bath by unique ceramic reinforced feet.

PALACE features an exclusive super luxury bath made by Victoria & Albert® to which we have added our own reinforced ceramic feet bringing the whole of this bathroom concept together. Bath size 1,800mm x 800mm

Back to wall bidet  
380mm x 545mm x 425mm

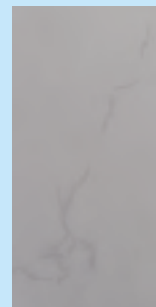

Back to wall wc with soft close seat

Back to wall pan with soft close wrap over seat 370mm x 530mm x 420mm

The EMPIRE collection has the unique advantage of creating a modern or classic look. For those who prefer a traditional scheme with an Art Deco twist, pedestal basins feature strong geometric shapes with close-coupled wc's to match. For a modern update, a back to wall wc and basin with chrome trap could provide a more contemporary feel.

The EMPIRE collection offers a complete bathroom solution with everything you need to create a soothing sanctuary.

EMPIRE LED mirror 570mm x 810mm

Minimalism in bathroom design, at least in its pure form, is giving way to more elegant and refined shapes – SUMMIT is our latest example. Easy on the eye, SUMMIT will have a long appreciated lifespan not becoming dated like so many stark, minimalist designs of the recent past.

We suggest you choose our classic 1,700mm x 750mm ORIENT bath having one of the highest water capacities in this overall size available. You can really pamper yourself in its deep styling.

Chunky styled Passion water mixers are a must to compliment the suite along with the large format Lounge porcelain tile and mosaic range, offering huge scope to your final choice of look.

SUMMIT's hidden benefit is a price that is well below our competitors and puts a smile on to everyone's face.

The epitome of elegance and chic – RESERVA's smooth, uncomplicated lines will grace any new bathroom. Such elegant looks will provide longevity to a new bathroom beyond many other designs which make a stronger statement. The sanitary ware melts into any bathroom layout and when mixed with our subtle glossy Roma tiles and the statuesque Passion water fittings, the overall result appeals to all.

The Roma range mosaic option provides a little decorative extra contrast to the standard Roma tile.

RESERVA has a gorgeous 1,700mm x 750mm luxury bath in Easyflow acrylic which is not only attractive to look at, it also is exceptionally comfortable with its built in head rest.

## COMPACT Hands Free WC Operation

### Hands Free WC for Improved Hygiene

Hygiene is a major issue today, whether it is a hospital or in your home. In conjunction with Cistermiser, a UK specialist manufacturer of sensor controlled water management systems, RAK Ceramics has developed a close coupled wc for use both at home, or in the contract field.

We have modified our COMPACT Deluxe model to accept a specially developed battery operated flushing system prepared by Cistermiser especially for us. The system allows you to flush your wc without touching – just allow the system to flush by passing your hand slowly over the sensor.

The mechanism delivers the same water release from the cistern as if you had pressed our normal manual 6/3 litre push button control. It is powered by 4 AA batteries contained in a waterproof battery pack, so there is NO NEED FOR EXPENSIVE wiring. We are told that the batteries should last 2/3 years in normal domestic operation. They are easy to remove and refit. In addition, you have the added comfort of knowing that the mechanism is backed up by both RAK UK's and Cistermiser's service support all round the UK.

COMPACT Deluxe close coupled wc with extended height 425mm and soft close seat

Close up of sensor operated control

Close up of open cistern showing battery operated power unit

## COMPACT DOCM packs – wheel chair friendly

In compliance with Lantec Standard we offer DOCM packs to suit both our special needs close coupled (COMPACT Deluxe) wc and our 425mm and 455mm high back to wall pans. You can have either the standard push button operation or our Cistermiser hands free system

Close coupled wc with 4 rails and adjustable rail

Back to wall wc with 3 rails and adjustable rail

# COMPACT

COMPACT slimline handbasin 1 or 2 tap hole  
450mm x 215mm

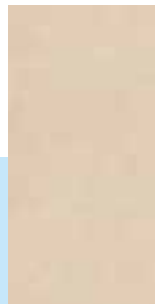

COMPACT corner basin 1 or 2 tap hole  
315mm x 315mm x 360mm

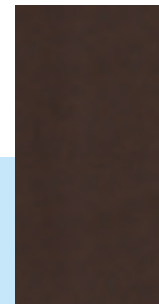

COMPACT has satisfied some 250,000 customers over the past five years. The original COMPACT design has proven to be enduring and appealing. A price tag that makes our customers happy combined with a very compact size shown here on the right in a 2m x 1.7m bathroom. In particular a close coupled wc of 615mm is one of the smallest on the market.

# COMPACT

SERIES 600 is probably the most space saving range on the market. The close coupled wc only projects from the wall by only 600mm.

Despite its contemporary styling and air of quality it is incredibly affordable. Blended with our 1,700mm x 700mm METROPOLITAN acrylic bath and Polaris basin and bath mixers it delivers unequalled value for money.

Basin and pedestal 1 or 2 tap hole 520mm x 425mm x 810mm

Close coupled wc pan, wrap over seat with optional soft close 365mm x 60mm x 400mm

Amazingly this bathroom is only 2m x 1.7m or 6' 6" x 5' 7". Yet SERIES 600 fits well into this very small bathroom even with our minimalist METROPOLITAN 1,700mm x 700mm 5mm acrylic bath complete with overhead shower and back screen!

You can have a luxury small bathroom to be proud of well within a tight budget.

## Capricorn Travertino and Alicante tile range

▲ Capricorn Travertino  
Wall: 25cm x 40cm

## Probably the smallest close coupled wc available

A complete close coupled wc all in one box! Already water tested at the factory (as all RAK close coupled wc's are) before dispatch, this take away loo includes:

- Close coupled wc pan
- Close coupled cistern complete with fitted 6/3 litre push button flushing cistern already fitted
- Wrap over urea toilet seat with either standard or soft cose hinges
- Unbeatable competitive price
- Complies to WRAS testing standards
- Probably the smallest projection close coupled wc on the market – **595mm** (+ or - 5mm)
- Size 595mm front to back x 365mm wide x 780mm high
- Every wc water tested before leaving the factory

## Reliable flushing action by Gerberit of Switzerland

In our quest for finding the very best suppliers of the parts we do not manufacture ourselves, we are pleased to confirm that GERBERIT of Switzerland now supply both the water inlet and flushing valves to our wc's.

Determined by the Swiss habit of the highest quality engineering, we have a supplier that matches our own highest vitreous china standards.

An extra benefit is that you can remove the lid of your cistern without having to unscrew any parts or subsequently damage any connecting cables or tubes.

Due to the excellence of their product it gives you piece of mind that your 6/3 litre or 4/2.7 litre flushing system is working like a Swiss watch!

## Toilet seat and fixings

Whether you have chosen a soft close, or a standard urea toilet seat, you will be supplied with solutions to problems you may have experienced in the past. Apart from a heavy weight urea toilet seat construction the seat is held into the pan from a top fixing so it's easy to unscrew if needs be (except SERIES 600) but more importantly is anchored by its unique style of toggle bolt which embeds itself into the body of the pan when fixed. **NO MORE SEATS COMING LOOSE!**

## Hidden cisterns and support mechanisms

RAK's new adjustable support for hidden fixing of wall hung pans with integrated adjustable support frame and cistern

RAK's standard built in system of separate support legs with hidden cistern and flushing button

## Virtual World computer design system

We can now offer our **RAKELITE** dealerships a unique design service which can be passed on to the end users of our products.

Through Virtual World, we have had all the actual shapes of our sanitaryware and baths, plus the colours and patterns of our tiles are incorporated into this system.

The result is that you can see exactly what your bathroom project will look like, in detail, before you actually order.

This is subject to your chosen dealer actually having the Virtual World System.

## Baths

RESERVA 1,700mm x 800mm x 430mm

ORIENT 1,700mm x 740mm x 415mm

DKM 1,700mm x 800mm x 430mm

METROPOLITAN (2 sizes) 1,700mm x 700mm x 430mm and 1,800mm x 800mm x 450mm

EVOLUTION 1,750mm x 750mm x 480mm

All RAK UK acrylic baths are manufactured from 5mm Easyflow acrylic allowing us to achieve a higher quality bath with increased depth across our entire product range.

The acrylic sheets we use are sanitary graded to UK specifications and manufactured by UK based Lucite International. Our baths are also reinforced which encapsulates the baseboard and has a gelcoat finish.
